DETAILED ACTION

Claim Objections

1. Claims 1,14,16,17,23 are objected to because of the following informalities:

Examiner suggests defining "alpha" within the claim language. Appropriate correction is required.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 8 and 15 of the instant application is anticipated by claim 8 of U.S. Pat No. 6,657,980 in that claim 8 of U.S. Pat No. 6,657,980 contains all of the limitations of claims 8 and 15 of the instant application. Claims 8 and 15 of the instant application therefore are not patently distinct from the earlier patent claim and as such is

unpatentable for obvious-type double patenting. Claims 8 and 15 of the instant application are broader in every aspect than the patent claim and is therefore an obvious variant thereof. Although the conflicting claims are not identical, they are not patently distinct from each other because claims 8 and 15 of the instant application are generic to all that is recited in claim 8 of U.S. Pat No. 6,657,980. That is, claims 8 and 15 of the instant application is anticipated by claim 8 of the patent. Therefore, claims 8 and 15 are rejected.

4. Claims 9-11 are rejected because they depend from rejected claim 8.

Allowable Subject Matter

5. **Claims 1-7,14,16-23** are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: See claim 1 of U.S. Pat No. 6,657,980.
